

Certified Professionals Listing

List of Certified Playground Safety Inspector (USA)

The Certified Playground Safety Inspector (CPSI) course leads to professional certification for playground safety inspectors. This intensive 2.5-day programme provides the professional training and assessment required to become a Certified Playground Inspector accredited by the National Recreation and Park Association in the United States. Playright is the sole provider of CPSI (USA) training in Hong Kong.

CPSI certification lasts for three years. Renewal of certification ensures that professionals are knowledgeable about current standards and guidelines for playground safety.
